Shortage of Rents, Another shortage of rents is being complained of in Danieison. Although more than a score of dwellings have been crected here during the past 12 months they have been taken as rap-idly as completed and the demand for homes continues. The demand is due principally to the increased activity at some of the manufacturing plants in the borough. The Danielson Cotton company has a few vacant tenements, but is holding them for the accommodation of its own employes, increasing in number from time to time.
